Scanning Tests in Aware with <u>Constructed Response</u> questions

The 2016-2017 Aware Item/Test Bank gives you the option to choose Constructed Response questions. These are open-ended questions that appear on the bubble sheet as a box _______.

Eduphoria will not analyze the test until you have gone in and answered the constructed response items for EACH student. When you scan them in, they will NOT show up until you follow these steps:

- 1. Go to the Analyze Tab and choose "Tests Available". Find your test.
- 2. Choose the class/classes that you tested. Look at the bottom of the screen.
- 3. You will see "Enter Answers". Click on it.
